

NetSuite helps R K Foodland manage their supply chain and logistics with Integrated Solution

**Company Name:**

R K Foodland

Industry:

Wholesale
Distribution/Supply Chain
Management

Headquarters:

Mumbai, India

Applications Replaced:

Ramco, SAP

NetSuite Product:

NetSuite

NetSuite Version:

WD Edition

Results:

- Ad-hoc reporting happens in near no time with the help of the inbuilt report writer.
- Multi location inventory tracking possible on a single system
- Lot number tracking; Batch management for multiple locations
- Real time reporting and data analysis across the organization
- Overall efficiency increased due to integrated solution with NetSuite as the base system integrated with TMS and WMS.

Challenges:

- Multiple systems with no integrated view or dashboard
- Inefficiency in inventory management.
- Tracking of inventories at multiple locations was not possible
- Finance system was not connected to inventory management
- Reporting did not happen in real time

Solution:

- Chose NetSuite for its entire company
- Integration with specialized systems like eFleet for Transport Management and eBizznet for Warehouse Management helped gain better control of warehouse inventory
- Entire Order to Cash in one single system with integrated view of Transport management as well as Warehouse management.
